Objective

Highly motivated and professional Computer Science and Engineering graduate with a current CGPA of 8.8. Proficient in managing calendars, volunteering for event coordination, and handling confidential documents. Possess exceptional communication, interpersonal, and technical skills, with a proven ability to work both independently and collaboratively as part of a team.

Intern Experience

Arul Technologies

AI & IOT Intern   **Jun 2023 - Jul 2023**

Completed an internship in AI & IoT, where I worked on integrating machine learning models with IoT systems, focusing on automation and real-time data processing. Gained hands-on experience in data handling, model training, and system optimization.

Techswot IT Solutions

Web Development Intern   **Aug 2024 - Sep 2023**

Completed a Web Development Internship, where I gained hands-on experience in designing and developing responsive websites. Worked with front-end and back-end technologies to build user-friendly interfaces and dynamic web applications. Improved skills in HTML, CSS, JavaScript, and basic database integration.

Projects

Project 1 (Arduino Obstacles Avoiding Car)
The car senses obstacles in its path using the ultrasonic sensor, avoids obstacles by reversing or turning, and resumes moving forward once the path is clear.

Project 2 (Learning Module Platform)
A programming learning platform with video lessons, in-browser code compiler, and note-taking. Enhanced user experience through an all-in-one interface.

Project 3 (Cloudchain: Hybrid Cloud Storage Application)
CloudChain: Hybrid Cloud Storage – Designed and developed a scalable, secure cloud storage system combining Appwrite, IPFS/Filecoin, and Ethereum smart contracts for efficient data management.

Certifications

Certificate from Techswot IT solutions

For experience in building interactive and responsive web applications.

Certificate from Tamilnadu Skill Development Corporation

For the completion of MERN stack powered by Mango DB

Education

Bachelor of Engineering   **2021 - 2025**
Computer Science and Engineering
Sri Ramanujar Engineering College

Skillls

Skill 1: Java Programming Language Skill 2:
Frontend (HTML, CSS & JavaScript)
